

The Core Four

Take Action!

Practicing these four core safety messages may save your life.

1. Right Alarm – Right Location

The right type of alarm placed in the right location in your home.

2. Fire Drill Plans and Prep

Practice a fire drill at home, sleep with your bedroom doors closed, and have fire extinguishers in their proper place.

3. Fire Sprinklers Save Lives

Properly installed and maintained fire sprinklers save lives.

4. See a Problem – Take Action

Take action when you see a problem.
Don't ignore safety issues.
